Message from the Fair Association President

In 1888, a group of individuals purchased 20 acres of land and created the Sandwich Fair Association. They held a fair where families gathered together and competed in a variety of agriculturally-centered categories. One hundred and thirty five Sandwich Fairs later, that remains the goal.

Over time, additional entertainment for all ages became available to fairgoers. Families became involved in exhibiting, vending, assisting their church or service organization, or helping to organize the fair.

A perfect example of multi-generational family involvement is the Wagner family. Someone from the Louis Wagner family has been in charge of the Horticulture Building at the Sandwich Fair for 76 years. After 50 years of dedicated service to the fair, John Wagner has decided to handover the reins to his daughter, Krissy Ross. We wish John and his family the best and celebrate that tradition continues.

The board of directors thank you for exhibiting. Please continue to encourage your family and friends to become involved with the fair so we may look to the future while preserving the past.

See you at the 2023 Fair,

Larry Dannewitz

How to Enter Items in the Fair

Important: Use current year Exhibitor's Guide!

Open Class / Open Class Livestock Departments are open to anyone who wishes to compete in the Sandwich Fair. Complete the white *Open Show Entry Form* or *Open Show Livestock Entry Form* in the back of this book.

Junior Class / Junior Class Livestock Departments are eligible for Premium State Aid only if they are open to boys and girls who are 8 years of age, or in the third grade, and not yet 21 years of age on or before September 1 of the year previous to the fair. All animals shown in junior classes must be the property of the boys and girls showing them. If the same animals are shown in both the open classes and junior classes, they shall be shown under the same exhibitor's name (for example, the father is not permitted to show an animal in the open class and the son or daughter show the same animal in the junior class). Complete the yellow *Junior Show Livestock Entry Form* at the end of the Junior Livestock listings in this book. There is a specific form for livestock entries and one for general (Open Show) entries. Use of the wrong form may cause your entry to be incorrectly processed.

There are two (2) methods to enter competitive exhibits:

Online Entries OR **Paper Entries**.

Online Entries: can be processed by following the "Online Entries" link found on the Sandwich Fair Web site at...

www.sandwichfair.com

Paper Entries:

6. Entry forms must be postmarked or received at the Fair Office by 6:00 p.m. of the **August 25, 2023 deadline.**

Please be sure and read the information provided at the beginning of each department.

CVI means a legible record made on an official form from the state of origin which has been issued, signed and dated by an accredited veterinarian and which shows the name and address of the animal's owner or exhibitor and results of all required tests or vaccinations. A CVI shall list only one animal identification per line; shall be presented on the form on which it was initially issued; and shall not be corrected, changed or altered in any manner.

3. All animals shall be officially identified. The animal(s) official identification shall be recorded on the CVI.

The Illinois Department of Agriculture or designee may collect urine, blood, tissue or other test samples from exhibition animals at the time of slaughter.

LIVESTOCK EXHIBITOR INFORMATION

We feel it is important to address Foot and Mouth Disease (FMD) with you. FMD is a foreign animal disease and is so classified by the United States Department of Agriculture (USDA) and the Canadian Food Inspection Agency (CFIA). The fair is keeping abreast of information about the occurrence of FMD in the United Kingdom, France and the Netherlands. We are following the USDA/CFIA recommended practices to insure the safety of your livestock. According to the USDA and the CFIA there are only two continents, North America and Australia, that are free of FMD. Two-thirds of the world lives with FMD in their animals on a daily basis. The occurrences in the United Kingdom, France and the Netherlands have received a great deal of media coverage there as well as the US and Canada. The probability of FMD coming to the US or Canada as a result of these occurrences has increased only slightly. However, awareness of the situation may have decreased the possibility of an occurrence in the US or Canada. Canada and the United States are both very vigilant in the prevention of the spread of FMD, thus making their common border very safe for both countries. Both the USDA Animal and Plant Health Inspection Service and the CFIA have plans to contain occurrences of foreign animal diseases, including FMD.

The USDA plan is called the National Emergency Response to a Highly Contagious Animal Disease and the CFIA plan is the Food and Agriculture Emergency Response System. These plans would be put into effect immediately upon a suspected case of FMD. These plans include varying steps depending on the severity and probability of the suspected case being FMD. State and provincial departments of agriculture have also been having meetings to educate their own employees about this response. Education about FMD is very important. FMD cannot be contracted by humans. FMD in most cases will not kill livestock unless they are young or already in a weakened state. There is a vaccination for FMD. This information approved by the United States Department of Agriculture and the Canadian Food Inspection Agency.

IAFE

(INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS)

NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the IAFE National Code of Show Ring Ethics, fair and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitor, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada. The following is a list of guidelines for all exhibitors and all livestock in competitive events.

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible person shall provide animals health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to

be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulation and rules affect the animals performance or appearance at the event. If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoof or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited.

Furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect and no person shall direct abusive or threatening conduct toward them.

8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.

9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expositions* and any special notices to members.

11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions. ♦

ILLINOIS DEPARTMENT OF AGRICULTURE BUREAU OF ANIMAL HEALTH & WELFARE May 3, 2021

Salmonella Pullorum Testing Waiver:

The Illinois Poultry Inspection Act, (510 ILCS 85/2.1), states that no hatching eggs or poultry, except poultry for immediate slaughter, shall be bought, sold, transported within or imported into the State unless the hatchery or flock of origin is a participant in the National Poultry Improvement Plan for the eradication of pullorum and fowl typhoid, or is following a program officially approved by the Department. The Administrative Rules (8 Ill. Adm. Code Section 55.70) state that all entries (except waterfowl, i.e., domesticated fowl that normally swim, such as ducks and geese) to a show or exhibition must have come from a U. S. pullorum-typhoid clean or equivalent hatchery or flock; or have a negative pullorum-typhoid test within 90 days prior to exhibition. It should be noted that the United States has not reported Pullorum-Typhoid in the last ten years.

Due to the shortage of antigen necessary to conduct Pullorum-Typhoid testing, the State of Illinois is waiving the pullorum requirements for birds or hatching eggs sold within or imported into the State as well as the testing requirements for exhibition. Once antigen becomes available, this waiver will be rescinded and all flocks participating in the National Poultry Improvement Plan will be required to conduct their annual test. Reciprocity with other states is not guaranteed and producers / exhibitors are responsible for contacting those state officials regarding compliance with entry requirements. Producers can have their veterinarian collect samples and submit them to an approved laboratory for testing that uses alternative methodologies. ♦

Junior Class / Junior Class Livestock Departments are eligible for premium State aid only if they are open to boys and girls who are 8 years of age, or in the third grade, and not yet 21 years of age on or before September 1 of the year previous to the fair. All animals (i.e., individual, herd or flock classes) shown in junior classes must be the property of the boys and girls showing them. If the same animals are shown in both the open classes and junior classes, they shall be shown under the same exhibitor's name (for example, the father is not permitted to show an animal in the open class and the son or daughter show the same animal in the junior class).

Complete the yellow Junior Show Entry Form at the end of this section. There is a specific form for Junior livestock entries and one for Junior general entries. Use of the wrong form may cause your entry to be incorrectly processed.

No entry allowed on grounds before 6:00 pm Friday of fair week and must remain until 5:00 pm on Sunday. **Livestock entries close on August 25th.** Each exhibitor is limited to two entries in a class. All animals must be shown by owner.

All Junior Show Exhibitors must secure their exhibitor ticket at the Livestock Office before unloading. The Livestock Office will be open from 6:00 - 10:00 pm Friday for that purpose. Take your health papers with you.

GENERAL CIRCUIT CONDITIONS:

1. USTA, Department of Agriculture, County Fair and Northern Illinois Colt Association Rules to govern when not covered in the following conditions. All races are two one mile dashes unless otherwise specified.
2. When a race program is canceled for reasons beyond control of said Fair, and the program can be raced the following day, the Fair reserves the right to race as many of the canceled events as can be programmed without interfering with previously scheduled entertainment. The Fair reserves the right, as time permits, to race on a one or two heat plan.
3. Fields will be divided by colts and fillies where possible. However, in no case shall extra divisions for fillies be made, nor shall short fields be started to accommodate fillies.
4. When raced as eliminations, the elimination heats will race for 60% of the estimated purse and the final heat race for 40%.
5. Published purses estimated. Distribution of purses will be: 50%, 25%, 12%, 8%, and 5% for five finishers. In all Northern Illinois Colt Association Stake events when a race is caused to be divided the purse will be equally divided among all of the divisions, except in the case of separate colt and filly divisions where the March 15 payments will follow the sex.
6. Overnight events contested on the Northern Illinois Colt Association circuit.
 - a. When an overnight event is split into more than one division, the Fair reserves the right to race on a one-heat plan.
 - b. Right is reserved by the Fair to retain that part of the purse not raced for in all of the overnight races.
 - c. In all overnight races right is reserved to require 5 to enter and 4 to start. Where the entries are more than can start in one race, the race will be divided. The Fair will add 50% of the original purse and race in divisions. Each division will race for an equal share of the total purse. Fair reserves the right to assign stalls on a first come basis. Horsemen racing on the Northern Illinois Colt Association are responsible for carrying their own driver-accident insurance.
